

Sustainable Living 2018

Small scale

“Understanding how our environment’s natural assets can help improve the places we live in.”

Medium scale

- Better use of locally sourced materials
- Better design
- New approaches to the efficient production and use of energy
- Promoting high standards of building

Large scale

- **Encourage and support projects which are examples of best practice, or which try out new ideas and fresh approaches.**
- **Promote the sharing of best practice and the exchange of knowledge.**
- **Ensure that the best examples of sustainable living are recognised through a '*Green Halo*' accreditation.**
